

WRATHFUL DAKOTA.

Public opinion in Dakota feels outraged because the last Congress refused to admit that Territory as a State in the Union. One paper voices the feeling there on the subject in language more attractive from its strength than its courtesy. It advises the people of Dakota "to invite Congress to go to the —" and "to set up independently on our own hook." It declares that, "with more Territory than New England, New York, New Jersey and half of Pennsylvania combined, with more population than New Hampshire, Vermont, Delaware, Florida and Nevada, with more daily papers than any three Southern States put together, and with more general intelligence among her people than is to be found in all the professional politicians of both parties at Washington—she has within herself everything necessary for a glorious homeland." The strength of this language may please the utterer's constituents, but abroad it will raise a question of his sanity and truthfulness. Dakota has not nearly the population he gives it, but it has probably not less than 250,000 and possible 300,000, and it certainly has more than enough to entitle it to one Representative in Congress. Moreover, they are, like the population of California when that State was admitted into the Union, far above the average in intelligence, push and general wealth; and the majority of them are not women and children, but voters. It is not straining a point to assume that there are more legal voters now in the Territory of Dakota than in Nevada, Oregon and Delaware combined, unless the published accounts of immigration during the last three years are grossly exaggerated.

ANOTHER BOND CASE.

The Sentinel states that the news has been received at Eureka that the sureties on the bond of McConkey had won their suit in the District Court at Hamilton; or, in other words, that their demurrer to the complaint was sustained. The ground of the demurrer was that the County Commissioners neglected their duty in the premises, and failed, among other things, to count the moneys at times as directed by the statutes, thereby depriving the defendants of that information to which as bondsmen the law gave them the safeguard and right to have. The defense in this action seems to have been that relied upon by the Carrick bondsmen, and seems to have been as successful in the one instance as the other. Commissioners are again admonished by the decision in the McConkey case to be vigilant in the duties imposed upon them by law.

On the 24th of May a competitive examination will be held at the Washington Territory University, the prize being the new cadetship at the disposition of Delegate Brentz. A like examination will be held at the same time at Walla Walla.

It is estimated that the decrease in the public debt for the month of April amounts to about \$3,500,000. The smallness of this amount is accounted for by the fact that \$10,000,000 has been paid out during the month on account of pensions.

The New York Star is somewhat disgusted with the Democratic Legislature of that State, including the Governor as well. It says it will be a long time before the people of New York vote the bogus reformers into power again.

Mr. Ezekiel Edgecomb, one of the nominees of the City Republican Convention declines to accept the office. Mr. Edgecomb has been offered official honors in Carson several times before and has always declined.

The Ruby Hill Mining News has just entered upon its fourth volume. Under the management of W. J. Penrose the News is certain to maintain its position as one of the leading weekly papers of the State.

Lambert Molinelli, who has been editor of the Eureka Leader for the past four months, has relinquished the trip to E. D. Vanderlieth.

The Portland Statesman predicts that the Republicans will carry Oregon by 5,000 at the next election.

It is stated that Roscoe Conkling is to deliver the memorial oration in New York on Decoration Day.

Perhaps this is the secret of the McDonald boom. An Indiana Congressman writes that if the Democrats will nominate McDonald and Wallace, William H. Vanderbilt will support the ticket. With the possessor of three hundred millions backing the Democratic ticket, the public may be coerced into doing the same.—Alta

GOOD TO REMEMBER.

Postal Information for Reference.

If you will cut this out and stick it in your memorandum book, you will find it convenient for reference, and be spared the trouble and expense of writing letters of inquiry to the newspapers. On and after October 1, 1883, letter postage will be 2 cents for each half-ounce or fractional part thereof, between all points in the United States. The rate will then be the same on drop letters and all others. No changes have been made in rates on other classes of matter.

On and after the 1st of July, 1883, you can obtain at any money-order office postal notes in sums of \$5 and under, by paying a fee of 3 cents. These postal notes will be made payable to the bearer without corresponding addresses. They will be payable at any money-order office within three months of the date of the issue. After the lapse of that time, the holder can obtain the par value only by applying to the Post-office Department at Washington.

On and after the 1st of July, 1883, you can obtain a postal money-order for as large a sum as \$100. The present limit is \$50. The fees on and after that date for orders will be as follows:

Not exceeding \$10.....	8 cents
From \$10 to \$15.....	10 cents
From \$15 to \$30.....	15 cents
From \$30 to \$40.....	20 cents
From \$40 to \$50.....	25 cents
From \$50 to \$60.....	30 cents
From \$60 to \$70.....	35 cents
From \$70 to \$80.....	40 cents
From \$80 to \$100.....	45 cents

The postal notes will no doubt be found more convenient in one respect than the fractional paper currency was, since they can be obtained for any number of cents under \$5. There will also be less liability to loss by theft than there was when fractional notes were used for transmission through the mails, especially if the department uses judgment in prescribing the size and form of the notes and in selecting the paper on which they are to be printed.

On the other hand, they will be less convenient, in that they can only be obtained at money-order offices, at a considerable sacrifice of time, especially in large cities. It will be observed that, after the 1st of October, the cost of sending any sum under \$5 by postal note will be 5 cents—2 cents postage and 3 cents fee.

The new fees on orders are considerably less than the old; but it will be found no doubt that they can be reduced still further, and considerably simplified, without loss to the department.

GLUCOSE.

No Prospect of Business Revival—Large Works Idle.

There is no prospect that the glucose works of Chicago, shut down some time ago, will recommence operations for some time to come. The people are frightened by the peculiar opposition to glucose, and they claim to believe that the fright was started by parties having a financial interest in the cane product of the South. They also profess to believe that some of the press of the country was arrayed against glucose by misrepresentation inspired by unusual means. Some idea of the extent of the prostration of the gigantic industry may be found in the case of the Chicago Sugar Refinery Company. Their immense glucose works were erected during the early part of 1881. The buildings cover 320,000 square feet of space. The sugar-house buildings are 160 feet square and 140 feet and eleven stories high. These and the other large buildings cost in round numbers \$1,150,000. They have pumps with the capacity of 10,000,000 gallons per day, and engines of 16,000 horse-power. The capacity of the works is 8,000,000 bushels of corn annually, with the occupation for 10,000 men day and night. These are the works which are six times larger than any like establishment on the globe that is idle to-day.

Theatrical Successes and Failures.

The New York Mail and Express summing up the results of the theatrical season, says the failures of the season have been numerous, fully one-half of the 216 combinations that started out in September having joined the majority. The most successful combination was that playing Romya Rye, which took in \$201,297 in thirty-one weeks. Mary Anderson has made \$100,000. Bart Campbell the same, with his Galley Slave, White Slave, My Geraldine, and Siberia, Samuel of Posen, with Curtis as star, and One of the Finest, with Gas Williams as star, have coined money. Williams recently paid his partner Rickerbe \$50,000 for his share of the play. J. K. Emmet has been very successful during his engagement in Brooklyn. The receipts for three nights footed up \$1,496, \$1,440 and \$1,400 respectively. John McCullough's season was the best he has ever known. The same may be said of Modjeska. The Callender Minstrels, under the management of Frohman, have turned in a clear profit of \$50,000 thus far.

A SENSATION IN CHURCH.

A Catholic Priest Charged at Mass with Having Insulted a Young Lady.

NEW YORK, May 1st.—The congregation of St. Cecilia's Roman Catholic Church, Brooklyn, was startled at the ten o'clock mass yesterday morning by a vigorous denunciation of the officiating priest, Rev. Florence McCarthy, by Mrs. Cronin, one of his congregation and the mother of Miss Cronin, who has for some time played the organ in the church. Mrs. Cronin spoke so rapidly that her words could not be recalled accurately by those present. The substance of what she said was that Father McCarthy had been guilty of conduct toward her daughter which showed that he was unfit to be a priest. Father McCarthy from the altar denied the charges. Mrs. Cronin's denunciation created considerable commotion in the church, and some of the officers went out presumably for a policeman. She was not ejected, however, but left the church escorted by her husband. Miss Cronin is a comely girl of eighteen years. She said that last Tuesday she complained to her mother that the priest had insulted her; that she and her mother had gone to the Bishop and complained of the priest, and that at the suggestion of the Bishop she had gone to the priest Saturday night and tendered her keys. She told the priest that she would not stay there longer to be insulted. Jealousy has been attributed by the priest as the cause of her denunciation of him, but she said there was no other occasion for her leaving the church than the insult she has received, the precise nature of which she did not disclose, saying she had told the particulars to her mother and to the Bishop, and she thought Father McCarthy would not be permitted to remain in charge of the church.

A NOVEL SURGICAL OPERATION.

The Heroic Attempt to Save the Life of Gen. J. J. Chamberlain.

Boston, April 20.—The operation which is expected to save the life of General Joshua J. Chamberlain, President of Bowdoin College, was one of the most novel and daring in the history of surgery. For some months General Chamberlain has been suffering from serious complications resulting from a wound received during the war, when a ball passed through his body from hip to hip. A difficult operation at the hands of Dr. Joseph H. Warren, President Lincoln's physician, saved his life at that time, but a recent abscess in the abdominal cavity was followed by a sloughing away of about two inches of the urethral canal. Natural healing was impossible, and it was decided to attempt the unprecedented feat of building up the missing section with transplanted flesh. Dr. Warren, with two assistants, performed the operation yesterday afternoon. The process occupied two hours, during which time the patient remained under the influence of anesthetics. The abdomen was laid open and slowly, bit by bit, the living flesh was cut from not vital parts and sewed into place in the shape of the missing organ. Inflammation was guarded against by a constant stream of antiseptic spray upon the internal organs, and finally, after many careful stitches had been taken in the internal construction, the outward opening was closed and the operation was successfully completed. The patient rallied better than was expected and to-day he was able to sit up and the fever has not been as severe as was feared would result. It is expected that the mechanical union of transplanted tissue will become vitalized and if no mishap occurs all danger will be passed in a week or ten days.

CLIPPER TRADE.

The Gradual Absorption by the Railroad of all Pacific Coast Freight.

The gradual decline of trade with the Pacific Coast via Cape Horn is reflected in the following figures of the tonnage movement for the past month of April, it being the smallest yet noted in the annals of this trade. The efforts of the railroads are still directed towards the dual absorption of the whole business, except, perhaps, enough to give employment to about half the number of vessels now annually dispatched. The movement for April amounted to three vessels, of which two were general cargoes, registered 5,371 tons, against nine vessels of 12,774 tons in the corresponding month last year, and fifteen vessels, registering 25,629 tons, against twenty-three vessels of 38,953 tons in the corresponding period last year. The vessels loading and under engagement to load number twelve, registering in the aggregate 21,687 tons.

Let us Know About It

Congressman Cassidy has returned and is now at his home in Eureka. Probably he will favor the people with an explanation as to whether he has made the appointment for the Cadetship, or whether he will allow all the boys in the State a chance through the medium of a competitive examination. There are several boys in the State who allege that they are willing to take their chances to such an examination, and Austin has one them, who, our people think, can carry off the honors. We have already given his name—Robert B. Eames.—Austin Democrat.

ADMINISTRATOR'S SALE.

IN THE 7TH JUDICIAL DISTRICT COURT,
in and for the county of Washoe, State of
Nevada, in the matter of the estate of C. C.
Gates, deceased.

Administrator's Sale of Real Property.

Notice is hereby given that Robert McTaggart, Administrator of the estate of C. C. Gates, deceased, will offer at public auction, on the premises, in Truckee Valley, in the county of Washoe, and State of Nevada, to the highest bidder, between the hours of nine o'clock A. M. and the setting of the sun, on Thursday, the 3d day of May, 1883, the following described real property belonging to said estate, to-wit: The W. 1/4 of the N. E. 1/4 and 1/2 of the N. E. 1/4 of Sec. 33, and W. 1/4 of the S. E. 1/4 of Sec. 28, and N. W. 1/4 of the S. W. 1/4 and S. W. 1/4 of the N. E. 1/4 of Sec. 34, Tr. 19, N. R. 20, dog E. Mount Diablo base and Meridian, containing 300 acres more or less; said sale will begin at 10 o'clock A. M. on said day. Should the Administrator, from any cause, fail to sell said premises on said day at public auction, he will thereafter continue to offer the same at private sale until said premises are sold. The terms of sale as fixed by order of the Court are: One-half of the purchase price must be paid when the sale is confirmed by the Court and a deed of the premises is made; the remaining one-half of the purchase price must be paid within one year after deed made of the premises, and said remaining price to be secured by a mortgage on the premises sold, at 10 per cent. per annum on said remainder.

ROBERT MCTAGGART,
Administrator.

Dated this April 10th, 1883.

Memorial Day.

There was a fair representation at the Armory last evening to talk over Memorial Day affairs. After some discussion a Committee consisting of Judge Marshall, T. F. Laycock, C. H. Stoddard, Capt. Moger and Rev. E. B. Hatch was appointed to prepare a programme and furnish an estimate of the cost of a proper celebration, and report Saturday evening to which time the meeting adjourned, and at that time it is hoped everybody interested will be present.

Mackay Purchases a Famous Picture.

The New York World says: At the Norisshchen side in Paris, the famous picture by Gerard Dow, "The Fish Merchant," was bought by Mackay for 51,000 francs. If Mackay should try to bring this picture to America for the benefit of artists and the public, he would be fined under our beautiful tariff about \$3,000 for his good taste and love of art.

The Yellow Jacket Contest.

On May 9th a special meeting of the stockholders of the Yellow Jacket M. Co. will be held at Virginia City. The object to be taken into consideration at such meeting is the removal of the officers of said company. This evidently means that Mr. Sharon intends to assume control of the property.

Jurors

A venire for 75 trial jurors was issued out of the District Court day before yesterday, returnable on the 14th. There will therefore be 125 jurors available for the Savings Bank cases.

THE COMSTOCK OUTLOOK.

The Grand Old Lode Soon Again to Come to the Front.

It is with pleasure the JOURNAL reproduces the annexed from the Enterprise:

The men of friendly neighboring camps, who have felt that the only manner in which they could inform the world of their existence would be by kicking us, the Comstock "Dead Lion"—of a record of over \$300,000,000 in bullion—will probably be sorry to hear that we are likely to come to the front again. That we shall shortly soon again come to life is now apparent, however sad the news may be to some regions of our "beloved country." The Comstock nor the people of the Comstock have never felt jealous of any other mining camp in the United States. On the contrary, Comstockers have always been pleased with evidences of prosperity manifested by the people of other camps, and have sent off expert miners to assist in the development of all newly-discovered mines.

Take the history of silver mines in all countries and it is to the effect that they were so many years in bonanza and so many years in borasca. It is just as true and just as natural as that there are silver mines. Look at the big mines of Mexico. How often have they been in borasca? It is the same here as in Mexico. There is a broad silver-bearing belt lying between certain kinds of rocks. These rocks (called east and west walls) are the guides of the miners. All within is what may be called a sort of pudding. It is a conglomeration of stuff called vein matter, in which ore is liable to be found at any time. So long as we have the distinctly marked east and west walls, with a goodly width of the vein (or pudding) material, we are liable at any time to find ore.

Now, on the Comstock, even at the lowest level, there is found to be an immense breadth of vein material—from 1,000 to 1,500 feet. No one can tell the depth to which this vein formation may extend. Now, a very encouraging feature at the north end mines is the coming in at the 2900 level of a vein of ore of good milling quality, which has been explored to a considerable distance in the Union Consolidated and also into the Sierra Nevada ground.

THIS ONE STRIKE

Is one of excellent promise. It is not exceedingly rich, yet it is of fine milling quality. In the Sierra Nevada the deposit is about nine feet in width, at a distance of some twenty-five feet from the main east crosscut; southward, at a distance of thirty feet from the crosscut, the deposit is wide enough at the bottom of the drift for two sets of timbers, but only some nine feet wide at the top. This shows downward widening. The deposit shows that it is either the top or the bottom of a deposit. As no top has before this time been seen this cannot be the bottom.

At the middle mines the outlook is very flattering. Owing to lack of air the Hale and Norcross folks have discontinued work on their north drift, on the 2800 level, for a time, and have commenced drifting across to the point where the winze from the 2400 level will come down. Connection with this winze will be a new departure. It is of vital importance to all the middle mines. Instead of bringing all their air from the Combination shaft, they will be able to get it 1,000 feet to the front.

The Chollar folks have in crosscut A an excellent prospect. They are pretty sure to catch the ore found by the Hale and Norcross folks in their drift (65 feet) south. This will give them a good breadth of vein and a chance of much ore.

At the Yellow Jacket is the opening out of what may prove a good, big deposit. At other points also the "earth is beginning to crack" and things open out.

Land Register Crane on Trial.

The trial of W. H. Crane, the Susanville Land Register, indicted for embezzling and issuing false and forged certificates, was begun in the United States District Court on Monday at San Francisco, Assistant United States District Attorney Carroll Cook representing the Government, and George F. Wood and W. W. Bishop appearing as counsel for the defendant.

Fighting Back.

This is an interesting item from the Eureka Sentinel:

We learn from R. Sadler, who came back from Hamilton Sunday, that County Commissioners Lockwood and Halstead were arrested there Saturday, on a complaint sworn out by P. M. Ellison, charging them with dereliction in office in neglecting to count the moneys in the Treasury, as directed by the statutes. They were put under bonds of \$250 each to await the action of the Grand Jury. The affair created quite a sensation, and the Commissioners were the maddest men in the county. The McConeys bondsmen are pretty hot in the collar because they have been sued by direction of the Commissioners, and the arrests were probably instigated by the bondsmen to hit back once and get even, by making the Commissioners as mad as the Commissioners had made them.

In the cure of severe coughs, weak lungs, spitting of blood, and the early stages of consumption, Dr. Pierce's "Golden Medical Discovery" has astonished the medical faculty. While it cures the severest coughs, it strengthens the system and purifies the blood. By druggists.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. feb. 21-sw-lyr.

Fine Job Work.

The JOURNAL job office has just received a large and fine stock of paper, cards, inks, etc., for job printing and is prepared to take orders for every description of work in the printing line. Only skilled workmen are employed in the job room and no inferior work is allowed to leave the office. Compensating prices are charged for every job and satisfaction guaranteed. Call and examine our specimens and leave your orders.

Time and Expense Saved.

Hard workers are subject to bilious attacks which may end in dangerous illness. Parker's Ginger Tonic keeps the kidneys and liver active, and by preventing the attacks saves sickness, time and expense.—Detroit Press.

Bliss' American Wonder peas, Chicago market potatoes, red, white and yellow top and bottom onion sets, Arabian evergreen millet seed, white Russian oats and a full line of fresh field, flower and vegetable seeds are selling rapidly at Queen's drug store, at bottom prices.

You can buy a first-class sewing machine twenty-five per cent. cheaper at Osburn & Shoemaker's than elsewhere in the State.

The best known remedy for coughs and colds is the Infallible Cough Mixture prepared by Osburn & Shoemaker's.

A splendid stock of fresh garden, field and flower seeds just received at Osburn & Shoemaker's.
